/ WORK EXPERIENCE

>> Junior FullStack Software Developer

The Spotters Company (TSC) | March 2022 to January 2023

- Engaged with a team to develop The Ibadan Urban Flood Management project (IUFMP) mobile application with RESTful API connecting the backend to the mobile application. I contributed 50% to the team as I was required to do designs, write codes and implement.

- Managed a 5-member cross-functional (product, engineering, sales, support) team and coordinated with six business partners toward the successful launch of an e-commerce platform.

- Responsible for the training of several young students on Mobile application development, SQL, and software engineering

- In conjunction with a team of developers in the production and development of "PickUps" and "PickUps Rider" with RESTful API connecting the backend to the mobile application integrated with Paystack payment.

- In collaboration with a team of three to develop a mobile application for a towing project. My contribution was 47% of the project.

- Managed a process re-engineering project to improve and consolidate end-to-end service processes; restructured communication flow among **10 departments and cut down paperwork by 75%.**

>> Energy Engineer

Ecowatt Nigeria Limited | January 2022 to March 2022

- Development of training brochure
- Involvement in energy audit training with colleges.
- Energy audit in building and report writing.
- Participated in generating energy audit with teammate and deliver consultation services.
- Consultation on a 10KVA Solar system installation.
- Routine check ups of installed Solar System for customers.

>> Solar Technician

Talent City Limited | May 2020 to December 2020

- Engaged with a team of 3 to do research projects on renewable power sources.
- I was tasked with designing and constructing solar power generators ranging from 0.5 KVA to 3.5 KVA.
- I had to work alongside my teammate to design and install solar power systems.
- Underwent the energy audit of client's homes.
- Responsible for the procurement and installation of CCTV cameras.
